The amendment to the charter, known as Assembly Bill 33, places the control of the parks under the Board of Aldermen, but if these services were rendered under a former employment by the Board of Works, which formerly had control of the parks, it is proper the Board of Works having ordered the service or authorized them, should order payment of bills, if found correct. If the Board of Aldermen has ordered these services, then the bills should be ordered paid by said Board out of any moneys appropriated to the use of said Board in excess of the needs of any particular department of said Board, but the expenditures cannot exceed the appropriation made to the Board, was presented, received, ordered filed, and the bills referred to the Board of Public Works.

OFFICERS COMMUNICATIONS.

The following communication from his Honor the Mayor, was presented, read, received and ordered to be entered at large on the journal of proceedings:

MAYOR'S OFFICE, CITY HALL.

May 17, 1873.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen: I return without my signature, "An ordinance relative to the appointment and duties of the Superintendent of Public Grounds and Buildings in Jersey City." The second section of the ordinance says, "That the Superintendent of Public Grounds and Buildings shall have control over all public buildings in Jersey City, except such buildings as may be under the control of the Board of Public Works, Board of Police Commissioners, Board of Fire Commissioners and Board of Education. He shall also have the general superintendence and control over such persons as may be appointed keepers of all public parks in Jersey City. If the Superintendent is to have control over all of the public buildings owned by the city, except those under the control of the Boards of Public Works, Police Commissioners, Fire Commissioners and Board of Education, I am at a loss to discover the location of the public buildings which the Superintendent is really to have charge of, and as for the public parks there are but three in the city. The control and management of these parks he has transferred from the Board of Public Works to the Board of Aldermen, and it is the duty of the Committee on Public Grounds and Buildings of your honorable body to give their personal supervision and attention to all matters appertaining to the care and management of the public parks of Jersey City.

I cannot, therefore, see the necessity of an ordinance authorizing the employment of a superintendent of public grounds and buildings; and I am somewhat surprised that such an ordinance appropriating the sum of two thousand and two hundred dollars per annum for an office which may be considered a sinecure, should secure eleven out of the twelve votes of your honorable body. Very respectfully yours, &c., CHAS. H. O'NEILL, Mayor.

On motion of Alderman S. H. Smith, the communication was laid upon the table.

Concurrent resolutions adopted by the Board of Public Works May 20, 1873, ordering paid to J. B. Cleveland \$5,600 on contract No. 8 for reservoir No. 3; to American Water and Gas Pipe Company \$19,500, on account of new pipe conduit, contract No. 153, and to Stephen Parish \$7,500, for 800 lengths six-inch cast iron water pipe, contract No. 191; also, ordering the issue of improvement certificates for \$3,000 to John Gardner for improvement of Palisade avenue; \$5,500 to Myles Tierney for improvement of Fairmount avenue; \$5,000 to F. F. Gaudier for improvement of Summit avenue, and \$9,000 to O'Neill & McLaughlin for improvement of Hoboken avenue, were presented, received and referred to Committee on Concurrent Resolutions.

A copy of a resolution adopted by the Board of Police Commissioners, requesting the Board of Aldermen to provide suitable office accommodations for the Chief of Police, and the officers attached to police headquarters was presented, received and referred to the Committee on Public Grounds and Buildings.

A writ of certiorari issued by the Supreme Court at the suit of John J. Dixon, to remove into said Court the assessment for taxes and water rents of 1870, upon parts of lots 2 and 3, block 319, and parts of lots 7 and 8, in block 320, was presented, received and referred to the Corporation Attorney.

The City Clerk presented a report of the approval by his Honor the Mayor on the 19th inst., of the ordinance passed on the 13th inst., regarding the appointment and defining the duties of city Weighers and Measurers. The report was received and ordered filed.

OFFICERS' COMMUNICATIONS.

The following communication from His Honor, the Mayor, was presented, read, received, and ordered to be entered at large upon the journal of proceedings.

MAYOR'S OFFICE, }
JERSEY CITY, June 24, 1873. }

To the Honorable, the Board of Aldermen of Jersey City:

Gentlemen: I return without my signature the following resolution:

Resolved, That so much of the resolution adopted by the Board of Public Works, June 17, 1873, ordering a warrant paid to George S. Plympton for six thousand five hundred dollars on account of contract for furnishing coal to

the Jersey City Pumping Station, contract No. 192, be and is hereby concurred in by the Board of Aldermen.

I cannot approve of this resolution for the reason that the Mayor and Aldermen of Jersey City have made no legal contract with George S. Plympton as specified in the resolution.

On the seventeenth day of June, being the same date as the resolution ordering a warrant for payment on account of coal contract, a contract between George S. Plympton and the Mayor and Aldermen of Jersey City, dated May 25, 1873, was presented to me for my signature. The conditions of this contract are as follows: Mr. Plympton agrees to furnish to the Mayor and Aldermen of Jersey City two thousand tons of bituminous coal at seven dollars and forty-five cents per ton, and also three thousand tons of Wilkes-barre anthracite coal at five dollars and eighty cents per ton. I find by the list of bids published that the bid of E. A. Parker & Co., for three thousand tons of Wilkes-barre anthracite coal was but five dollars and seventy cents per ton, or ten cents per ton less on the three thousand tons of the same quality of anthracite coal as bid for by George S. Plympton. I am of the opinion that the contract for the two thousand tons of bituminous coal should have been awarded to George S. Plympton, he being the lowest bidder for this quality of coal; and the contract for the three thousand tons of anthracite coal should have been awarded to E. A. Parker & Company, they being the lowest bidders for anthracite coal. In justice to the parties who bid for this coal contract, as well as to our fellow tax-payers of Jersey City, I cannot see how I can consistently give my official sanction to the resolution ordering a warrant for six thousand five hundred dollars in favor of George S. Plympton for coal furnished on a contract which has not up to the present time received my official signature.

I am, gentlemen, respectfully yours, &c.,
C. H. O'NEILL, Mayor.

On motion of Ald. S. H. Smith the consideration of the communication was postponed.

Concurrent resolutions, adopted by the Board of Public Works June 24, 1873, ordering paid to Hughes and Matthius \$3,327.82, as reasonable damages by them sustained in the abandonment of such portion of their contract for the improvement of Ravine road as call for and require the building of a dry wall for abutments for bridge on said road at Palisade avenue and the construction of a wooden bridge on said road over said avenue pursuant to resolution heretofore passed by said Board and concurred in by the Board of Aldermen, and consent filed with the clerk of the Board of Public Works, and in accordance with the provisions of a supplement to the city charter, approved March 13, 1873, and ordering paid to the American Water and Gas Pipe Co., \$12,000 for labor and materials furnished on new 36-inch pipe conduit; and to J. B. Cleveland \$3,000 on contract No. 8 for labor and materials on reservoir No. 3, was presented, received, and referred to the Committee on Concurrent Resolutions.

A copy of a resolution adopted by the Board of Finance and Taxation on the 19th inst., and approved by the Mayor on the 21st inst., requesting the different boards of the city government to file with the clerk of the said Board, on or before July 1st, the recommendations and estimates of expenditures for the fiscal year beginning December 1, 1873, was presented, received and referred to Committee on Finance.

The City Clerk presented reports of the approval by his Honor the Mayor on the 20th inst. of the ordinances passed on the 17th inst. in relation to the carrying of dangerous weapons, and to provide for armories for the National Guard of the State, and for public baths. The Committee on Streets, to whom was referred June 3, 1873, the petition of N. G. Vreeland for removal of obstructions from Grand street, &c., presented a report thereon recommending the adoption of the following resolution:

The Committee on Streets reported the following resolution, on petition referred to said Committee, July 15, 1872:

Resolved, That permission is hereby granted to Peter A. The report was received, and the resolution adopted.

The Committee on Streets reported the following resolution on petition referred to said Committee, July 15, 1873:

Resolved, That permission is hereby granted to Frank Smith to place a coal-scale in front of his place of business, Nos. 18 and 20 Brunswick street, provided the same does not interfere with public travel; the scale to be placed under the direction of the Street Commissioner, and to remain during the pleasure of the Board of Aldermen. The report was received, and the resolution adopted.

The Committee on Streets, to whom was referred July 15, 1873, the communication from Michael Mullone by Michael Mulone, Jr., attorney, concerning encroachment caused by a freight house of Pennsylvania Railroad Co., on Mercer street, and protesting against the proposed extension of their present depot to corner Mercer street, east of Greene street, presented a report thereon, setting forth "that the Committee have carefully examined into the matter and find that March 15, 1853, an application was made to the Common Council of Jersey City, by the New York and Erie Railroad Company for permission to lay a temporary track in Mercer street along and in front of their passenger station on said street, and that April 5, 1853, a resolution was adopted by said Common Council granting the permission asked for, provided the company would plank the street in a good and substantial manner from Greene to Hudson streets, so that the street would become passable at all times for teams, carts, &c., and with the further proviso that the Common Council should have power to revoke the permission contained in the resolution.

This application by the Railroad Company and grant by the Common Council would seem to imply that that Mercer street east of Greene street was then a dedicated public street, and mapping map of 1804, Clerk & Bacots map of 1848, and the map of the Jersey Associates of 1857, all show Mercer street extended east to Hudson street with pier leading into the waters

of the Hudson river; and further that the Committee cannot find any authority in law to permit the Pennsylvania Railroad Company or New Jersey Railroad Company to take possession for railroad purposes of that portion of Plymouth street, formerly called Mercer street.

The following resolution accompanying the report:

Resolved, That the Street Commissioner is hereby authorized and directed under the direction of the Corporation Counsel to take such action as may be necessary to cause the removal of all obstructions from Plymouth street east of Greene street, and also to take such further action as may be necessary to prevent the construction of any building or buildings over or upon said portion of Plymouth street. The report was received.

On motion of Alderman S. H. Smith, the resolution was laid upon the table.

Whereas, That part of Mercer street now called Plymouth street, in Jersey City, which lies east of Greene street, has been for some time past used and occupied by railroad tracks and for railroad purposes, so as to be of little or no value to the public for common travel and the ordinary use of a common highway; therefore,

Resolved, That the United New Jersey Railroad and Canal Company, as requested by them, is hereby authorized to keep and maintain tracks of iron rails and make such improvements for railroad purposes as the emergencies of the business may require, in that part of Mercer street now called Plymouth street, which lies east of Greene street in Jersey City, reserving, nevertheless, any rights of action, if any exist, to any person or persons by reason of such use of said street, which are not, or have not been, created under or by virtue of any ordinance of the Mayor and Aldermen of Jersey City. It being intended hereby to confer the license and authority of the Mayor and Aldermen of Jersey City for the purposes aforesaid, but without liability to Jersey City for any damages that may arise in consequence of such use by the said railroad and Canal Company.

"An ordinance to extend to the territory hitherto composing the township of Greenville, the ordinances of Jersey City, which have been passed, re-enacted or amended in and by Jersey City, pursuant to the charter of March 31, 1871, and its supplements."

On motion of Alderman Toffey the first motion was amended by striking out the words "all and every," and inserting in their stead the words "each and all of," and was further amended by adding the letter "s" to the word "provision," where the same first occurs in said section.

Smith the ordinance was further amended by adding thereto the following words: "provided that the 25th section of the ordinance passed July 18, 1871, in relation to the sidewalks, public grounds and streets in Jersey City, and amendment thereto, adopted December 5, 1871, shall not apply to that part of Bergen avenue lying between the Newark and New York Railroad and the Morris canal, or that portion of the Bergen Plank-road located in the former township of Greenville."

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from his Honor, the Mayor, filed in the City Clerks office on the 15th inst., and the same was read, received, ordered to be entered at large on the Journal of proceedings, and on motion of Alderman S. H. Smith was ordered to be laid upon the table.

MAYOR'S OFFICE,
JERSEY CITY, August 12, 1873.

To the Honorable Board of Alderman of Jersey City:

Gentlemen: I return without my signature a resolution authorizing the United New Jersey Railroad and Canal Company to lay, keep and maintain tracks of iron rails, and make such improvements for railroad purposes as the emergencies of the business may require, in that part of Mercer street now called Plymouth street, which lies east of Greene street, in Jersey City, etc., etc. I cannot find in the city charter any section whereby your honorable body can legally grant to any corporation the privilege contained in this resolution: Section 24 of the charter authorizes the Board of Aldermen to pass ordinances to regulate or prevent the use of streets for any other purpose than public travel, and to provide for the removal of any encroachments on streets or public places. This section appears to be the only one whereby your honorable body have control of or jurisdiction over the public streets of Jersey City, and any privilege granted under this section must be done by ordinance and not by resolution. No authority is contained in this (or any other) section of the charter giving power to the Board of Aldermen to vacate or close a public street, and I am of opinion that it is not in the power of the Legislature of any State to delegate to the municipal government of any city authority to grant (either by ordinance or resolution) to any per-

son or persons the exclusive use and control of a street or sidewalk in any city.

In view of these facts, and believing that the public have the exclusive right to use and occupy the public streets and sidewalks of the city, I cannot, therefore, consistently favor a measure which would in any manner interfere with those rights and privileges.

Very Respectfully,

CHAS. H. O'NEILL, Mayor.

NEW JERSEY SOCIETY FOR THE PREVENTION
OF CRUELTY TO ANIMALS.
HUDSON COUNTY DISTRICT.
JERSEY CITY, January 6, 1874.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen: I have been informed that a company of gentlemen, calling themselves a sporting club, intend to petition your honorable body for permission to violate the city ordinance in relation to the firing of fire arms, doubtless for the purpose of shooting pigeons, at a match for sport (so-called) or a wager.

Now it becomes my duty to send to your honorable body a most earnest protest to the granting of said request. It has been a source of great gratification to the mass of your constituents that this ordinance, without any other interference, would for ever prevent this inhuman and brutal practice, at least within the limit of this city; and in their name I do most earnestly hope you will not permit the violation of the law for a purpose so universally condemned. Therefore, I do most earnestly pay your honorable body not to grant said petition. Jersey City has a record for humanity in her protection of the feeble and the dumb that few cities can boast, and I sincerely trust that it will not be so easily thrown away. Your action in this matter will go forth to the community, and must receive their condemnation or approval. I pray you let it be on the side of peace, law, kindness and humanity toward the poor and helpless birds that this sporting club propose to torture, mutilate and destroy. Thanking you gentlemen for your aid and co-operation in the past, and earnestly petitioning it for the future, I subscribe myself the friend of the poor and dumb, be they brute or bird.

Resolved, That the resolution adopted December 9, 1873, requesting the Board of Finance and Taxation to appropriate the sum of, not exceeding forty thousand dollars to the Board of Public Works for street repairs in addition to the amount heretofore appropriated for such purpose, and to borrow the money and issue bonds for its payment, subject to the action of the Legislature to legalize said loan, be rescinded for the reason that the present condition of the finances would necessitate an exorbitant discount to secure the money if at all.

Resolved, That the Board of Finance and Taxation be requested to consider the subject matter of these resolutions, and that the Corporation Counsel be requested to draft and present to the Legislature for passage, an act providing for the legalization of such action on the part of the Board of Finance and Taxation as may be necessary to authorize said Board to include in the tax levy of the succeeding year an amount sufficient to cover the expenditures on account of street repairs during the present winter.

By Alderman Brown:

Whereas, There is now pending before the Legislature of our State a bill known as Assembly Bill No. 11, entitled, "An act to establish District Courts in the County of Hudson, the designs of which is to abolish the civil powers within our city of the Courts known as "the courts for the trial of small causes," which said courts, although possessing many defects are very convenient and easy of access to parties who are unable to pay to lawyers large retaining fees, and in short, are of great benefit to the poor man, because therein, if his claim is a just one, he can prosecute it to affect himself individually, and incur no expense beyond the actual cost allowed by law, for the clerical service rendered in issuing process, etc: therefore

Resolved, That it is the sense of this Board that said act is altogether unnecessary and uncalled for, and is opposed to the wishes and interests of the citizens and tax payers of our city, because if the courts proposed in said act are established on additional tax of at least thirty thousand dollars (\$30,000) per year, must necessarily be imposed on our already overburdened tax payers in order.

Whereas, The courts for the trial of small cases as they now exist, entail no expense whatever on either the city or county treasury.

Resolved, That a copy of the foregoing preamble and resolution, duly authenticated under the signatures of his honor the Mayor and the City Clerk, with the corporate seal of the city affixed thereto, be forwarded to each of our members of the Legislature, now in session at Trenton.

On motion of Alderman S. H. Smith, the preamble and resolution were ordered to be laid upon the table until the next regular meeting of the Board.

The Committee on Concurrent Resolutions to whom was referred on the 3rd inst., the resolution adopted at said date by the Board of Public Works, awarding to R. D. Wood & Co., the contract for furnishing 2,000 lengths of cast iron

water pipe, presented a report thereon adverse to concurring in said resolution, because the specifications call for delivery of part of the pipe at times now past, and because the bid itself does not comply with the terms of the specifications, there being no names furnished with the bid as sureties and no name of foundry given, the following resolution accompanying the report.

Resolved, That the resolution adopted by the Board of Public Works, March 3, 1874, that the contract for furnishing two thousand lengths of cast iron water pipe be awarded to R. D. Wood & Co., be not concurred in by the Board of Aldermen. The report was received.

The resolution was adopted by the following vote, the yeas and nays having been ordered and taken:

Yeas—All the members present, eight in number.

The Committee on Concurrent Resolutions reported the following resolutions on concurrent resolutions of the Board of Public Works, referred to said committee on the 3d inst.:

Resolved, That the resolutions adopted by the Board of Public Works, March 3, 1874—"That in the judgment of the Board of Public Works a site or plot of land is necessary for the Mayor and Aldermen of Jersey City" to have, on which to erect a shed or other buildings for the purposes of a pipe yard, and that a plot of land at least one hundred feet square or containing at least ten thousand square feet is necessary for such purpose.

Resolved, That whereas Thomas Gafney is the owner of a plot of land one hundred feet square, situate and being in Jersey City on the north side of South Fourth, now known as Fifth street, and which on a map entitled "Map of property belonging to Francis Morris in the Sixth ward of Jersey City, made by Bacot, Post & Camp, City Surveyors, 1870," and now on file in the Clerk's office of the County of Hudson, is composed of and known as part of lot numbered four (4) and the whole of lots numbered five (5), six (6), seven (7) and eight (8), and part of lot numbered nine (9), in block or section marked "A," as the same are laid down in said map forming a plot of land of ten thousand square feet, and when lots are now filled in and are suitable and desirable for a site for the construction of a shed or other building for the purpose of a pipe yard for city uses; and whereas said Gafney offers to sell and convey said plot to "The Mayor and Aldermen of Jersey City," for the sum of twelve hundred and fifty dollars (\$1,250), for each lot of twenty-five hundred square feet, making five thousand dollars (\$5,000) the purchase money for the said plot one hundred feet square, and to give good title thereto by warranty deed, with the usual full covenant, free and clear except as to certain mortgages now on said plot, which taken together make a total mortgage encumbrance on the entire plot of twelve hundred and fifty dollars to which the plot is to be conveyed subject; and the sum being by the purchaser of said incumbrance is to form part of and to be deducted from the purchase money aforesaid, and said Gafney to give immediate possession of said plot of land; and whereas, said Gafney offers to receive in payment for said plot of land at the price above named after deducting therefrom the amount of said mortgage encumbrance the street sweepings and dirt from time to time as it accumulates, at fifteen cents per cart-load, at which price the said street sweepings and dirt are now sold to the said Gafney; and whereas, the price or consideration for the said lots or plots seems reasonable, and the terms of the sale and conveyance thus proposed seem advantageous to the city, the purchase being desirable, and the lots or plots necessary for city purposes aforesaid. Therefore, the offer of said Gafney to sell and convey said plot is hereby accepted on the said terms proposed, and the said lot is hereby ordered to be purchased accordingly, and the Committee on Streets and Sewers, Extensions and Distributions, and Public Buildings, Grounds and Parks to conclude such purchase and sale with the said Gafney, and that the deed therefor shall

be given as soon as the title to said land can be examined; and, upon giving the deed, the said Gafney shall enter into an agreement in writing with the city to receive payment for the land according to the terms of his offer, provided the said Gafney shall convey an estate in fee simple, and the whole estate in said land, and that free and clear, except as to the said mortgage encumbrance be and is hereby concurred in by the Board of Aldermen.

Resolved, That the resolution adopted by the Board of Public Works March 3, 1874, That, Whereas, in the judgments of this Board, it is to the interest of Jersey City, that the contract heretofore made between "The Mayor and Aldermen of Jersey City," of the one part, and Francis P. Whereas, By the agreement in writing, under the hand and seal of the said Francis P. Gautier, filed with the Clerk of this Board, the consent of said Gautier to so annul said contract is made manifest; therefore the Board of Public Works of Jersey City, pursuant to and in conformity with the provisions of a supplement approved February sixteenth, A. D. 1874, entitled a "Supplement to an act entitled an act to re-organize the local government of Jersey City," passed March 31, 1871, hereby by resolution agrees to accept and does accept so much work as has been done and materials furnished under and by virtue of said contract so made as aforesaid, which said amount of work done and materials furnished under said contract appears by the certificate of the Chief Engineer now before this Board, (said certificate to be incorporated in the minutes of the Board and to remain on file as the evidence of the data therein contained,) and the said Board of Public Works accordingly, in pursuance of the foregoing, and by and with consent of the said Francis P. Gautier, with whom said contract for the improvement as aforesaid of a sewer &c. in Montgomery street, between the points named was made, by this resolution agrees to annul, and hereby does annul said contract as to so much and all of the work provided for in said contract as is still incomplete and which incomplete work appears, by reference to the certificate of the Chief Engineer, in connection with the said contract, and the annulling of this said contract as to the unfinished work thereunder is without damages or liability therefor on the part of the "Mayor and Aldermen of Jersey City," be and is hereby concurred in by the Board of Aldermen. CORPORATION COUNSEL'S OFFICE,
JERSEY CITY, N. J., March 24, 1874.

Alderman John B. Ginochio, Esq., Chairman of Committee of Streets:

Dear Sir: As requested by your committee, I have considered in connection with the charter and the general powers incident to municipal authority, the claim of Mr. Smith Henderson for \$600 or thereabouts, damages to a coach of his, caused, as he alleges, by colliding with a tree represented by him as leaning into and obstructing some portion of the street or roadway.

I respectfully advise the committee, after careful consideration of the matter, that in my opinion there is no authority reposed in or incident to the Board of Aldermen, or any other Board of the city government under the existing charter, to adjust and order payment of damages in this case.

Such being the result, it is unnecessary I should express any opinion as to the liability of the city to pay damages. If Mr. Henderson thinks himself aggrieved, his proper remedy is by suit, and a jury would have to determine the question of damages.

Respectfully submitted,

WM. A. LEWIS, Corporation Counsel.

REPORTS OF STANDING COMMITTEES.

Committee on Aims presented report, setting forth that the appropriation made by the Board of Finance and Taxation for the relief of out-

door poor for the year ending Dec. 1, 1874, is exhausted; that the committee have endeavored to meet all demands for relief with as sparing a hand as possible, yet with a desire to help all deserving this kind of assistance.

That the appropriation for the year was made in part at a time when no apprehension was felt or nothing known to cause the Board to expect any demand greater than of the previous year.

That the financial crisis of September, and continuing for several months, and from which trade has not yet recovered, demanded extraordinary amounts to meet existing necessities.

That a communication from the Overseer of Poor hereto annexed to said report, shows an aggregate of one hundred and fifty per cent increase of the demands for relief over former years, to which may be added the sum of \$3 80 expended for committing each pauper to the county almshouse.

That the Committee were forced during the depth of winter to partially stop the supplying of coal, and at a time when the most suffering existed, fearful that this one item would cost so much as to necessitate stopping of all supplies.

That the Com. have endeavored to give the subject their personal attention, and believe that while some things have been no doubt given undeservedly the bulk of the supplies were judiciously and economically distributed by the Overseer of the Poor, and that the many and laborious duties of that officer have been well performed, and

That the Committee have directed that officer to cease the giving out of supplies, except in the most urgent cases, and believe it is impossible to close the supply depot at the present time, notwithstanding the fact that the appropriation is exhausted. The report was received and ordered filed.

The Committee on Liquor Licenses reported the following resolution on application heretofore referred to said committee:

Resolved, That a license be granted to Isaac Knapp to keep a restaurant at Laidlaw avenue, near Central avenue, in the Fourth District. The report was received.

The resolution was adopted by the following vote, the yeas and nays having been ordered and taken:

Yeas—President Bumsted and Aldermen Cable, Giuocchio, McLaughlin, S. H. Smith, T. B. Smith, Tilden and Toffey. Nays—Alderman Clark.

(Alderman Brown appeared and took his seat.)

The Committee on Streets reported the following resolutions on petitions referred to said Committee on the 21st inst.:

Resolved, That permission is hereby granted to Robt. Blewitt to place a sign over sidewalk in front of his premises on Communiauw avenue near Bergen avenue, to remain during the pleasure of the Board, provided the same does not interfere with public travel.

Resolved, That permission is hereby granted to Keeney & Halladay to erect an awning on the York street side of their building standing at the northeast corner of York and Hudson streets, and in continuation of awning now erected in front of said building, to continue during the pleasure of the Board of Aldermen and to conform to the provisions of existing ordinances. The reports were received and the resolutions severally adopted.
